*Bird Notes.*

Miss Joan Cleland, Beaumont, reported:—She had received a Grey-breasted Silvereye's (*Zosterops halmaturina*) nest with two fresh eggs on 1st July, 1932. The bird was sitting on 26th June, but later deserted the nest owing to the pickers of olives. A pair of Red-capped Robins (*Petroica goodenowii*) started building a nest in an almond tree on the 27th. July, 1932.
