*Bird Notes.*

---

By S. Osborne.

On 7th and 14th October, 1935, a dozen Snipe, *Capella hardwicki*, were flushed, on each date, from a paddock with fairly long grass and a little water, five miles from Millicent, S.A. On 18th October, 1935, he flushed birds of this species in hundreds as he walked over a similar kind of paddock near Beachport, S.A.
