

*Notes About Cuckoos.*

By A. A. Simpson, C.M.G.

6th September, 1935.—The Pallid Cuckoo has sung in the North Park Lands, Adelaide, this week later than 9 o'clock one night, and between 3 and 4 in the morning. It seems to suffer from sleeplessness, like the Willie Wagtail, *Rhipidura leucophrys*.

CHAS. SMITH, F.R.S., SOUTH AUSTRALIAN MUSEUM.
