

By Harold Wade.

On 24th June a Fan-tailed was seen near the old quarry on Brownhill Creek, Mitcham, hotly pursued by a pair of Greenfinches (*Chloris chloris*) and a pair of Greenies (White-plumed Honeyeaters, *Meliphaga penicillata*).

On 21st July two Horsfield Bronze were noted in Netherby Avenue, Mitcham.

On 11th August a Pallid was heard in the heart of Mitcham and, judging by the sounds, it seemed to be passing through, heading south.
