

Spring Visitors, 1937.

Cuckoos, etc. (see pages 72, 73, 100/2).

Notes by J. Sutton, excepting six from James T. Gray, two from T. Brandon, two from C. E. Rix, and one from H. T. Condon.

Cuculus pallidus, Pallid Cuckoo.

June 19—Orroroo (James T. Gray).

October 31 days, November 1, 2, 3, 4, 5—Netherby, Mitcham.

October 2, 9, 16, 23, 30—Urrbrae, Mitcham.

October 4—Happy Valley Reservoir, and Eden Hills Estate.

October 10—Piccadilly.

Cacomantis flabelliformis, Fan-tailed Cuckoo.

October 10—Norton's Summit. October 17 and November 7—near Ambleside.

Owenavis osculans, Black-eared Cuckoo.

October 9—A specimen was taken at the Grange; ♂; stomach contents, 14 caterpillars, whitish-coloured with red and green marks (C. E. Rix).

Chalcites basalis, Horsfield Bronze Cuckoo.

September 25—Urrbrae, Mitcham.

October, 19 days, and November 1—Netherby, Mitcham.

October 4—Happy Valley Reservoir.

November 7—near Ambleside.

Lamprolaima plagosus, Golden Bronze Cuckoo.

October 17—near Ambleside.

Cinclorhamphus cruralis, Brown Songlark.

- August 29—Orroroo (James T. Gray).
October 4—Eden Hills Estate.
November 28—Outer Harbour.
October 19, November 10, December 5—Netherby, Mitcham.
October 2, 9, 16, 23, 28, 30; November 6, 13, 20, 27; December 4, 18—Urrbrae, Mitcham.

Cinclorhamphus mathewsi, Rufous Songlark.

- August 29—Orroroo (James T. Gray).
October, 31 days; November, 23 days; December 1, 2—Netherby, Mitcham.
October 2, 9, 16, 23, 30; November 6, 13, 20, 27; December 4, 18—Urrbrae, Mitcham.
October 4; November 21—Happy Valley Reservoir.
December 5—Millbrook Reservoir.

Lalage tricolor, White-winged Triller.

- October 4—near Happy Valley Reservoir.
October 9—A specimen was taken at the Grange; ♂; stomach contents, green grubs. (C. E. Rix.)

Acrocephalus australis, Reed Warbler.

- October 4; November 21—Happy Valley Reservoir.
October 3—River Torrens, Adelaide.
December 5—23 heard along the 11 miles of the Torrens Gorge, and two at Cudlee Creek.

Megalurus gramineus, Little Grassbird.

- October 4—Happy Valley Reservoir.

Artamus sp., Wood-Swallows.

October 8—Between 11.25 and 11.35 a.m. at Netherby, Mitcham. I did not realise until the latter time that they were not House Sparrows (*Passer domesticus*) calling, and I saw five flying westerly and high up. They seemed the Masked (*personatus*).

See Mr. Gray's notes on page 132.

Merops ornatus, Bee-eater.

November 7—2 miles south of Two Wells. (H. T. Condon.)

Epthianura tricolor, Crimson Chat.

August 29—Orroroo (James T. Gray).

October 6—Carriewerloo Station (T. Brandon).

Epthianura aurifrons, Orange Chat.

September 12—Orroroo (James T. Gray).

October 6—Carriewerloo Station (T. Brandon).
