
Bird Notes.

Dr. A. S. Randell.

Two Red-kneed Dotterels (*Erythrogonys cinctus*), seven Eastern Curlews (*Numenius cyanopus*), and three White Egrets (*Egretta alba*) were seen at Deep Creek, Lake Alexandrina; seventeen Greenshanks (*Tringa nebularia*) were seen at Dunn's Lagoon, Lake Alexandrina, and birds of this species were heard calling there at night on 13th March, 1938. On the same date Little Stints (*Erolia ruficollis*) and Sharp-tailed Sandpipers (*Erolia acuminata*) were in numbers at Deep Creek and at Dunn's Lagoon, and two White Egrets were on Hind-marsh Island.
