

## Reviews.

*Wild Nature in Australia*, Wonder Animals and Birds. By Charles Barrett, C.M.Z.S. Illustrated from Naturalists' Photographs. Publisher, Robertson & Mullins, Ltd., Melbourne. Price, 2s. 6d. .

The Booklet contains 52 pages and 24 plates covering 31 photographs, of which 11 deal with bird matters, two with botany and 18 with the animal kingdom. The letter press is excellent and informative, and the work can be recommended to all who have an interest in Australian flora and fauna. With the copy sent to us we find but one fault—the plates are too black.
