

By Dr. Alan Lendon.

Purple-backed Wrens (*Malurus assimilis*) were seen at Taillem Bend on 4th September, 1938, and two small flocks of Black-capped Sittellas (*Neositta pileata*) were noted at Tea-tree Gully on 17th September, 1938. A Little Cuckoo-Shrike (*Coracina robusta*) was seen about the end of June in the Botanic Park, Adelaide.
