

Winter Visitor, 1938.

Petroica phoenicea, Flame Robin. Continued from page 200,
Part 7.

24th July, 1938.—R. F. Brown and W. B. Hitchcock, at Bolivar, four birds, two of which were males.

25th July.—L. S. Francis, at Oaklands, a male; and on 13th August a male.

26th July.—C. Benger, at Clapham, twelve birds, three of which were males. Two males were seen about for a week before that date.
