

BIRD NOTES**PLUMED TREE-DUCK**

On the morning of February 15, 1965, a shooter on a swamp near the South Killanoola-Bool Lagon boundary shot two ducks out of a flock of eight, which were later examined and identified as Plumed Tree-Ducks (*Dendrocygna eytoni*). Several verbal reports have previously been made of the presence of these ducks around Naracoorte, but as far as can be ascertained, this is the first positive identification of *D. eytoni* in this district.
