

#### GULLIBLE PELICANS?

Following my note 'Use of Animate Perches by Silver Gulls' (*S. Aust. Orn.*, 25, 1968, p. 56), Mr. Roy Wheeler sent me a copy of *The Nature Trail* (newsletter of the Gould League of Bird Lovers of Victoria) of May-June, 1968, on the cover of which, under the above caption, is a photograph of two Australian Pelicans, each with a Silver Gull on its back. The photograph originally appeared in the Melbourne *Sun* several years ago and was taken from a Melbourne suburban beach. The text states that gulls can often be seen riding on the backs of pelicans on The Coorong.

BRIAN GLOVER.
